

## GENERAL PRICING SCHEME FOR THE DISTRIBUTION OF RADIO AND TELEVISION PROGRAMS. GLOBAL REMUNERATION CONCERNING A GENERAL AUTHORIZATION.

Provided that an offer includes programs or channels that fall within the definition of “general programs”, or when an offer is made up both of programs or channels that make extensive use of the repertoire, as well as programs or channels that make little use of the repertoire, the average collection percentage for this offer will amount to 3.6%.

For specific packages of programs or channels, the collection percentage depends on the use of the repertoire; the same applies to the offer of individual programs.

### The following scheme applies:

Cat.	Type of the channel	Collection percentage	Intensity of repertoire use
1	sport (competition) / info / finance / reality	1,20%	<15%
2	hobby / leisure / documentaries / culture	2,40%	15%-35%
3	General-interest channel/ fiction / fashion	3,60%	36%-55%
4	animation / cartoon / children's programs	4,80%	56%-75%
5	music	6,00%	>75%

Percentages are applied to the revenue from subscriptions.

Royalties are to be increased by VAT at the prevailing rate.
